# About the show

It is 1971 and Michael Dork is 17.

They call him nerd, geek, slacker. Socially marginalised by the entire school (except by his buddies Lucas, Marvin and Francis) and constantly picked on by Eddie, the coolest boy in school. Michael is desperate to find his ticket outta loserville and is convinced he can get computers talking to one another.

Michael has also discovered a girl, Holly, a prospect (almost) as exciting as his love of binary. If only he had the courage to talk to her! Perhaps things haven't changed that much after all! Chaos ensues when Eddie decides to interfere and blackmail Michael's friends so that he can impress his father. Will he get his way, or will our band of misfits crack the code in time and save the day? You will have to watch and see..!

Loserville takes geek to a whole new rock-pop level! Nominated for an Olivier Award for Best New Musical in 2013 and many more accolades, Loserville is based on the groundbreaking album "Welcome to Loserville" from the band Son of Dork.

## Graham Green - President

Dear WOW! Supporter,

Welcome to Loserville, a place of nerds, hard drives and romance.

Loserville was created, produced and performed by Youth Music Theatre UK in 2009 and is written by Essex born James Bourne of pop group Busted and Elliot Davis. Bourne is a patron of YMT as is Ed Sheeran.

As ever the cast have worked really hard to bring you their usual high standard of performance. I would also take this opportunity to thank all those involved with this production, many of whom you will never see.

The main aim of WOW! is to provide a place where young people can experience the magic of musical theatre and we remain the only Witham based group to do this. Over the last twenty years we have had many scores of children that have achieved their aim of performing on stage to their highest ability, long may it continue!
